SUBJECT: Clarkson Freightlines Regional WA Expansion

The team at Clarkson Freightlines are continually looking for ways to improve our business to uphold and exceed our premium service to all our customers.

We are pleased to announce as of Friday 2nd September 2016, Clarkson Freightlines will expand our service geography and commence a new transport services to and from Moora WA following the successful acquisition of Murrays Transport general freight assets.

With this transition of ownership, we would like to congratulate the Murrays on their long standing business. We will endeavour to continue the family business hands on approach and improve our own high levels of service to all our clientele for many years to come.

The expansion of services enables Clarkson Freightlines to continue on its mission of providing a premium logistics network linking together regional and rural WA. Further information on our business and services can be located on Clarkson's website – www.clarksonfreightlines.com.au

All transport freight rates will carry over and remain the same as per Murrays charges or available for discussion with in the first 12 months if required to tailor rates to specific client needs.

We hope to receive your support for our new service and are seeking your co-operation to assist with a smooth and seamless transition.

FREIGHT PROCEDURES – CLARKSON FREIGHTLINES FORRESTFIELD DEPOT

To help maintain our professional service, we ask that all our clients communicate our new outlined procedure below to all employees and key stakeholders within their respective businesses.

FORRESTFIELD YARD FREIGHT PICKUP AND DISPATCH

Our Perth yard freight pickup and dispatch times are 7am to 3pm Monday to Friday.

Our gates close at 3pm so that our staff can concentrate on loading trailers and getting drivers on the road within fatigue management guidelines. Any freight received after 2.00pm cannot be guaranteed to travel that day but if we are aware of urgent freight being delivered to our yard by an earlier phone call, we can ensure trucks wait around for loading so the freight can travel.

We do have a requirement for all pieces of freight to be labelled by customer or supplier with accurate details of receiver to assist correct freight allocation in our Perth yard.

TRANSPORT SERVICE SCHEDULE

Our planned delivery schedule for Moora to and from Perth will be based on seasonal requirement and flexible to change as with our current operations.

Weekly Moora set delivery schedule is listed below for peak and non-peak period of the year.

We also have the benefit of utilising our transport network passing through Moora on alternative days servicing other regions of WA which we are able to deliver urgent Moora freight on.

This service will be available by urgent phone call request and subject to truck movements for other freight runs on that day.

| Moora NON-PEAK period service schedule (July to December) | |
|------------------------------------------------------------------|---------------------|
| Loading day | Delivery day |
| Monday | Tuesday |
| Wednesday | Thursday |
| Moora PEAK period service schedule (January to June) | |
| Loading | Delivery |
| Friday | Monday |
| Monday | Tuesday |
| Wednesday | Thursday |
| Thursday | Friday |
